Call to order
Karen Planet, AIA, President

Secretary’s Report
John Meegan, AIA
Declaration of Quorum
Approval of the 87th Annual Meeting Minutes
Moment of Silence for Deceased Members

AIA Cleveland: Richard Bauschard, AIA Emeritus; Richard L. Bowen Sr., AIA; Edward Gene Lesko, AIA Emeritus; William Baum Morris, AIA Emeritus; Norman Perttula, FAIA; Kurt L. Schmitz
AIA Columbus: Mark Goodman Feinknopf, FAIA; Laura V. Shinn, AIA
AIA Dayton: Clarence Cross, AIA Emeritus; Harvey Pierce, AIA Emeritus
AIA Toledo: John D. Kohler, AIA Emeritus

President’s Report
Planet

Government Affairs Report
Luther Liggett, Jr.
PAC Update
Mary Glowacki, AIA

Treasurer’s Report
John Orsini, AIA
2022 Budget Amendment
2023 Budget Approval

AIA Ohio Foundation Report
Bruce Sekanick, FAIA

Nominating Committee Report
Mary Glowacki, AIA
Election of Officers

Old/New Business
Presidential citations

Adjourn
It is the practice of the American Institute of Architects and its members to comply strictly with all laws, including federal and state antitrust laws, that apply to AIA operations and activities.

Call to order
Mary Glowacki, AIA, President, called the meeting to order at 3:05 p.m.

Secretary’s Report
Aaron Hill, AIA, declared a quorum.

A motion was made, seconded and passed to approve the minutes from the 86th Annual Meeting.

A moment of silence was held for members deceased in the past year:

AIA Cleveland: Jack Alan Bialosky Sr., FAIA; Richard Fleischman, FAIA; Donald Johnson, AIA; Nick Lesko, FAIA; Rory Osborn

Hill presented the proposed bylaws amendments, approved by the AIA Ohio Board of Directors on July 24 and distributed in advance of the meeting. A motion was made, seconded and passed to approve the proposed bylaws amendments.

President’s Report
Mary Glowacki, AIA, highlighted items in her written report. She recognized AIA Ohio members Ed Glowacki, AIA, Sam Marcum, AIA, Rick Posey, AIA, and Eric Pros, AIA, with Presidential Citations.

Treasurer’s Report
John Orsini, AIA, discussed his written report. The proposed 2021 and 2022 budgets were presented. Orsini noted that the 2021 budget was approved last year, but is presented with minor adjustments. A motion was made, seconded and passed to accept the updated 2021 and the 2022 budget.

Nominating Committee Report
John Kelleher, AIA, introduced the proposed 2021 Slate of Officers:
- President – Karen Planet, AIA
- President-elect – Aaron Hill, AIA
- Secretary – John Meegan, AIA
- Treasurer – John Orsini, AIA
- Past President – Mary Glowacki, AIA

A motion was made, seconded and passed to elect the proposed 2021 Slate of Officers.

Old/New Business
The AIA Ohio Foundation 2020 Marr Citations were announced.

Adjourn
By unanimous acclamation, the meeting was adjourned.
It has been my distinct honor and privilege to lead AIA Ohio this year during a unique time in our history. Even though we have been limited in our opportunities to gather together in person due to the ongoing pandemic, I believe, and the statistics show, it has been a very successful year for the organization. We have reached out and connected with more of our members than in past years, increased the connections between the activities of the seven chapters across the state, engaged our members with quality virtual programming, celebrated the design accomplishments of our members, honored those who have risen above in service to the profession, and delivered new legislation to support the practice of architecture in the state of Ohio with the passage of Ohio Senate Bill 49 also known as the Payment Assurance Legislation.

The educational programming for the year began in February and just recently finished at the end of October. AIA Ohio produced and presented 18 original programs focusing on Advocacy, Design, and Practice Innovation that reached hundreds of AIA Ohio members.

The Advocacy Series started the year off with a virtual day at the statehouse where members had the opportunity to visit virtually with our state legislators and speak up about issues that are important to the profession. The advocacy programs that followed were designed to increase our members’ awareness and understanding of state government’s inner workings, fill the advocacy tool box with tips and techniques for being an effective advocate, and find inspiration from those who have found their voice as advocates for the profession of Architecture. This series could not have been possible without the countless hours spent meeting and preparing the sessions by my advocacy committee co-chair Bruce Sekanick, FAIA, and committee members Matt Toddy, AIA, and Kate Brunswick, Hon. AIA.

The advocacy highlights of the year included testifying at House and Senate Committee hearings, passing the Payment Assurance Legislation, and attending the bill signing with Governor Mike DeWine along with our bill co-sponsors Senator Jay Hottinger (R) and Senator Vernon Sykes (D). Years of work by the PAL task force and AIA Ohio’s Lobbyist Luther L. Liggett, Jr. all came together this year to pass proactive legislation on behalf of Architects and our professional colleagues across the state of Ohio.

The Design Series started in March and included monthly presentations by design speakers that were selected to expand our vision, stretch our imagination, and inspire us by sharing their unique design ideas. The speakers were from all over the United States and included: Barbara Bestor, FAIA, Laurie Hawkinsion, Monica Chadha, AIA, Gerard Damiani, AIA, Allison Grace Williams, FAIA, and Sung Ho Kim in conjunction with Heather Woofter. I’d like to recognize and thank Robert Maschke, FAIA for curating the inaugural series this year.

In September, the Practice Innovation series started with weekly sessions that were designed to introduce us to new and innovative ideas that could be applied to our architecture practices. The sessions focused on the value of research in practice, embodied carbon, alternative delivery methods, collaboration, wellness, and innovative technologies reshaping the practice of architecture. This fast-paced series could not have been possible without a dedicated group of members who collaborated on the development of the programming including the Chair of the committee Melinda Scalfaro, AIA and committee members Emily Little, AIA, Bruce Sekanick, FAIA, Bill Willoughby, AIA, and Kate Brunswick, Hon. AIA.
The AIA Ohio design awards program expanded this year to include the AIA Ohio Impact Award and the People’s Choice Awards. The jury, chaired by Marsha Maytum, FAIA of LMS Architects in San Francisco, selected nine projects to recognize for their design excellence. During the virtual ceremony we also recognized the recipients of the AIA Ohio Student Design Competition awards. These awards were selected from entries from the five accredited schools of architecture in the state of Ohio. A big thank you to Lauren Miller, AIA for chairing the Design Awards program this year.

Under the leadership of Mary Glowacki, AIA the AIA Ohio PAC committee raised a record number of contributions with a total in excess of $10,000 this year. The leadership of AIA Akron, AIA Cincinnati, AIA Cleveland, AIA Ohio, AIA Toledo, and AIA Youngstown showed their support for the AIA Ohio PAC and its mission by answering the challenge to have 100% donor participation from their Board members. For the first time, members of AIA Ohio who have contributed consistently and significantly to the AIA Ohio PAC over the years were recognized for their support of the PAC and our advocacy efforts.

We wrapped the year up in November with a Member Recognition Ceremony that included a festive dinner attended by over one hundred members from across the state to celebrate this year’s honor award recipients. It was truly an honor to recognize the AIA Ohio Gold Medal recipient Ruth Gless, FAIA. Christopher Meyers, AIA received the Mentor Award and the Public Service Award was presented to Michael Crislip, AIA. The Emerging Professionals recognized this year included Theodore Ferringer, AIA, Eric Pros, AIA, and Matthew Teismann, AIA

During the evening, we also had the opportunity to recognize the contributions of AIA Ohio’s sponsors, Ohio’s members elevated to Fellowship in 2020 & 2021, AIA Ohio PAC donors, and the recipients of the AIA Ohio Foundation Charles Marr Citations.

None of this could have been possible without the support and dedication of the AIA Ohio Board, our members, and Kate Brunswick, Hon. AIA for her tireless service to the organization this year. I am forever thankful for everyone who stepped up to the challenges of this year and shared their talents in service to the members.

As we conclude the year, we have to say goodbye to some of our long serving Board members. I’d like to thank and recognize everyone who is leaving the Board this year and in particular recognize Mary Glowacki, AIA Immediate Past President of AIA Ohio for her service to the organization over the years.

I’d also like to express my gratitude to all the members of the 2020 Strategic Planning Task Force who helped to develop the bridge plan in the midst of the pandemic that reimagined how AIA could better serve our members and the community and the leaders who recently participated in AIA Ohio’s 2021 two-day Strategic Planning session facilitated by Helene Dreiling, FAIA where the future direction for AIA Ohio was imagined.

As I pass the leadership torch on to President-Elect Aaron Hill, AIA, I look forward to seeing the organization grow and prosper under his direction.

It has been an honor to serve as your President and to have the opportunity to reflect on how, together, we have built the bridge to what I predict will be a stronger, more connected, and agile organization that will be a strong voice and advocate for the profession of architecture in the state of Ohio for many years.

Karen S. Planet, AIA
President, AIA Ohio
This past year has been unique for all of us in many ways, and that is no different for AIA Ohio. A year ago, as we collectively came to the realization that things were not returning to normal anytime soon due to the pandemic, the organization pivoted, under the leadership of current president, Karen Planet, AIA. A strategic ‘bridge’ plan was developed and implemented, that despite the challenges we would face, allowed the organization to remain fiscally responsible while still providing valuable service to our members.

Knowing that an in-person convention would not be possible, committees were formed to develop original programming content that would be presented to our members throughout the year. This programming focused on three key arenas; Advocacy, in a series aimed at ‘Finding Your Voice’, Practice Innovation exploring new technologies enabling us to practice in new ways and the Design Lecture Series featuring a diverse group of renowned architects from across the country. Hopefully, you were able to virtually attend at least of few of these sessions, and found them to be as valuable as I did. My sincere thanks to all of those who organized and led these sessions.

This quality programming presented by AIA Ohio this year, at no cost to members, would not have been possible without the investment of our sponsors in the organization. With that, a special thank you to our many AIA Ohio Annual Sponsors.

As we have lived and learned from the unique challenges of the past two years, it is now time for AIA Ohio to prepare a vision for the organization moving forward. As I write this, twenty of my fellow AIA Ohio members and I have just returned from a two-day strategic planning session in Columbus. Led by past AIA National President Helene Combs Dreiling, FAIA, we shared ideas focused on Members, Programs, Outreach, and the Organization. These two days of insightful discussions, will soon be formulated into a Strategic Plan, turning conversations into Goals, Strategies and Tactics that will be implemented by AIA Ohio over the next year and beyond.

As we wind-down the year, I would like to recognize and sincerely thank our 2021 President Karen Planet, AIA. I’m thankful for Karen’s wisdom in guiding us through an uncharted approach to things this year and for the countless hours she dedicated to seeing the plan through. I look forward to her continued involvement and counsel next year. I would also like to thank our current Past President, Mary Glowacki, AIA who will be leaving the board at the end of this year. Mary’s steady guidance to the organization during her tenure has been invaluable. Though we will miss her on the Board, we know her involvement and dedication to the organization will continue.

While 2021 was not a typical year for AIA Ohio, that was not a bad thing. We have learned from having to pivot, and will use those lessons as a lens to better guide our decisions as to how best serve our members as we move forward. I am optimistic about what we have planned for the year ahead and look forward to the opportunity to serve as your 2022 AIA Ohio President.

Aaron Hill, AIA
2021 AIA Ohio President-elect
The Ohio General Assembly will continue into its second year of session in January, 2022, with continued Republican majorities in both the House and Senate. All State Representatives and half of Ohio Senators will run for election in November, 2022, along with the Governor and all other statewide elected officials.

As a part-time legislature, the elected members will end all work on June 30, 2022, and return home to campaign. On the last legislative meeting day in December, 2022, the General Assembly will adjourn “sine die”, without another scheduled day. At that moment, all pending legislation is extinguished.

For 2022, the House Speaker will remain Robert Cupp of Lima, who has demonstrated his support of Architects as a profession. Senator Matt Huffman of Lima will continue as Senate President. Both are attorneys by profession.

Payment Assurance Legislation (PAL)

AIA Ohio successfully concluded its four-year effort to enact a lien law for Design Professionals.

Senate Bill 49 creates three new statutes, specifically creating the right to file a lien affidavit against the real estate by Architects, Revised Code 4703.20 to 4703.206; Landscape Architects, Revised Code 4703.54 to 4703.546; and Professional Engineers and Surveyors, Revised Code 4733.30 to 4733.306. Because the law requires a written contract with a person owning an interest in commercial real estate, privity of contract exists, and no “leap-frog” right is required.

Introduced February 4, 2021 jointly by Senator Jay Hottinger (R, Newark) and Senator Vernon Sykes (D, Akron), the bill enjoyed bipartisan support from the beginning. First heard in the Senate Judiciary Committee, no opposition appeared after the required three hearings, and the bill passed on the Senate floor unanimously. 18 Senators joined as co-sponsors. Next heard three times in the House Commerce & Labor Committee, the bill passed on the House Floor by a vote of 90-3, with 26 Representatives joining as co-sponsors. Governor Mike DeWine signed the bill into law on July 1, 2021, effective October 4, 2021.

Limited Liability Legislation. Senate Bill 56 would limit public design contract indemnification clauses to insurability, closing a gap in liability exposure. The bill passed the Senate unanimously, and received three hearings in the House Civil Justice Committee with no opposition. The bill is ready to be voted out for House floor consideration, then for the Governor’s signature into law before year-end.
Budgets. By Constitutional requirement, the General Assembly must pass a Capital Appropriation after January 1, 2022 before June 30, 2022 for the next two fiscal years. The Ohio Facilities Construction Commission recently reported activity of $151 million for 90 schools, ending this Fiscal Year through June 30, 2021 totaling $2.2 billion for 69 designs and 179 construction projects.

Building Code Obstacle. Senate Bill 9 is set to pass, with the goal of reducing administrative rules in each state agency by 30%. Sponsored by Senator Robert McColley (R, Napoleon) and Christina Roegner (R, Hudson), the bill passed the Senate along party lines, and is pending a vote in the House Government Oversight Committee.

If enacted, the new law would require each agency to reduce administrative rules by 10% annually for three years. Significantly, no agency could adopt new rules without maintaining the prior reduction, thus requiring a reduction of additional rules to enact a new one.

Building Officials around the state have expressed opposition to the legislation, particularly interested in uniform building codes. If the Board of Building Standards attempts to adopt an update of a uniform International Code Council package, the old package along with additional rules must be cut to meet the annual 10% reduction.

On October 28, 2021, the Committee accepted an amendment restricting agencies from adopting any rule which would be more restrictive than federal law on the same subject. Foreshadowing the full vote, the amendment was adopted along party lines.

Out-of-State Architects Automatic Ohio License. House Bill 203 proposes automatic Ohio licensure of any professional licensed in another state. Sponsored by Representative Jenna Powell (R, Arcanum), the sponsor believes that easier access to occupational licensing will create jobs in Ohio and help employers in recruiting.

The legislation does not create “reciprocity”, which already is provided in Ohio law if the other state similarly recognizes Ohio’s license. This legislation merely assists out-of-state individuals to avoid Ohio licensing requirements. With significant opposition, the fate of the legislation in the House State and Local Government Committee is unclear.

Cooperative Purchasing. House Bill 275 would allow public consortia to purchase “construction services” including contracts for design professionals without abiding by any statutory process, including Qualifications-Based Selection. The House Commerce and Labor Committee heard Sponsor testimony on May 12, 2021, and awaits Proponent and Opponent Testimony.

AIA Ohio is joined by the American Council of Engineering Companies and the Associated General Contractors in opposing the bill. We await Committee assignment. Due to AIA’s opposition, the sponsor has agreed to amend the legislation.
Medina County Common Pleas Court. The Medina Court of Appeals ruled that a county’s consideration of Architect hiring under R.C. 153.65 et seq., Qualifications-Based Selection must follow Ohio “Sunshine Law” requirements in an open meeting. The county selected an architect behind closed doors for a courthouse renovation. The Court of Appeals remanded the case back to the trial court, where the parties are undertaking discovery for further consideration. AIA Ohio is prepared to file an amicus curiae brief in support of QBS.

Interior Design Registration Legislation. Not introduced this year was Interior Design certification or licensure legislation.

In the prior legislative session, we successfully recruited opposition from the Ohio Building Officials Association, the Ohio Fire Chiefs Association, and the Ohio Mayor’s Alliance.
When the pandemic hit in 2020, AIA Ohio postponed a planned strategic planning session and instead put together a task force to set a plan for the year 2021. That group outlined programming and services that we believed would add value to membership while advancing our mission of advocating for the profession. It was decided early on in 2021 that AIA Ohio wouldn’t charge members for virtual programming this year, and the task force and the board worked hard to find ways to cut expenses. Throughout its history, AIA Ohio leadership has planned and saved for difficult times. The organization remains strong and well positioned to face the uncertainties of 2022 and beyond.

This chart illustrates at Oct. 31, 2021, AIA Ohio’s funds compared to our annual budgets proposed for 2022 and 2023.

- The budget for 2022 and 2023 includes both revenues and expenses for yet to be determined programming. This may include a combination of virtual offerings, programs and lectures, and some form of AIA Ohio Convention.
- Convention Reserves were set aside over time and specifically designated by past boards to be used in the event that a convention would not be financially successful. In 2021, AIA Ohio paid AIA Dayton $5,500 from this fund. The 2020 Convention was scheduled to take place in Dayton before it was cancelled.
- Investments have grown over time. AIA Ohio has not added money to this investment account in the last ten years. Ten years ago, AIA Ohio investments totaled $398,175.
AIA Ohio and Collaboration

Over the years, AIA Ohio has worked collaboratively not only with local components to support projects and initiatives but also with Ohio’s schools of architecture and emerging professionals.

The chart below shows funding allocated from AIA Ohio, from 2010-2020, to local Ohio components as a result of convention profit sharing, AIA Ohio Advocacy and Opportunity Grants and the AIA Ohio Special Initiatives fund.

Additionally, since 2014 AIA Ohio has supported young and emerging professionals through CARES Grants. Over the past seven years, AIA Ohio has paid out $34,700 in grants to qualified individuals for taking and passing a section of the ARE.
The 2022-23 budget proposal has been prepared and discussed by the Budget & Finance Committee, who worked with Kate Brunswick, CAE, Hon. AIA, to present the budget documents to the full Board in September.

**2022 Budgeted Revenues**
- Dues, $303,750.00
- Programs, $107,000.00
- Sponsorships, $35,000.00
- Awards, $20,250.00
- AIA Revenue Share, $8,100.00

**2022 Budgeted Expenses**
- Administration, $182,304.67
- Programs, $134,800.00
- Advocacy, $91,500.00
- Governance, $14,000.00
- Foundation Dues/Marr, $26,144.00
- Strategic Mission Fund, $13,000.00
- Bank Fees/Accounting, $11,940.00
Overview of 2022-23 Budget Recommendations Regarding Income

**Member Dues:** The 2022 budget reflects a 1.5% COL increase. The 2023 budget reflects no COL increase at this time.

**Associate Dues:** The 2022 budget reflects a 1.5% COL increase. The 2023 budget reflects no COL increase at this time.

**Directory:** Revenues for this are from firm profiles. The board is considering non-print options for the directory in the future.

**Sponsorships:** In 2021, AIA Ohio implemented an annual sponsorship program. The budget for 2022 reflects repeating what we received in 2021. The 2023 budget plans for a 10% increase.
State Convention and Yet-To-Be-Determined Programs: AIA Ohio has budgeted for programming revenues through a statewide convention as well as additional programming yet to be determined.

Awards: We had 88 entries this year. For 2022 and 2023, the budget is based on 90 entries at $225.

AIA Revenue Sharing: Cancellation of the A20 conference will impact the funds that AIA has available to share.

State Disaster Assistance: AIA Ohio will plan to offer Safety Assessment Program training virtually in 2022.

Overview of 2022-2023 Budget Recommendations Regarding Expenses

Administration: The 2022 increase mirrors the dues cost of living increase.

Audit/Accounting: Per the AIA Ohio bylaws, we are required to conduct an annual audit each year.

Foundation Dues Assessment: This is money collected through the dues invoicing process on behalf of the AIA Ohio Foundation.

Legislative: based on anticipated activities.

Directory: The budget for this is increased slightly as the board considers digital options.

Member Communications: includes AIA Ohio newsletter, sending any AIA Ohio Alerts, and web site maintenance.

YAF Representative: With the dissolution of the AIA Ohio Valley Region, AIA Ohio now has a representative to the Young Architects Forum. The 2022 and 2023 expense budgets for this will fund this individual to attend national meetings.

Annual Convention and Yet-To-Be-Determined Programs: AIA Ohio is considering options for the future of the AIA Ohio Convention, but has budgeted to offer some type of statewide convention to members in 2022 and 2023. Additional programming is budgeted as well.

Awards: The 2022 and 2023 budgets for awards have been increased to reflect the rising cost of this program.

Bank Charges: AIA Ohio’s bank account and investment fees

Schools Competition: Ohio Architectural Schools Competition.

Strategic Mission Fund: Funding for AIA Ohio to use to advance our mission, pursuant to the current three-year strategic plan.

State Disaster Assistance: Funding for this group to conduct programming in 2022 and 2023.

Respectfully submitted,

John Orsini, AIA, Treasurer
AIA Ohio, a Society of the American Institute of Architects

MESSAGE FROM THE
AIA OHIO FOUNDATION
PRESIDENT

Bruce Sekanick, FAIA, OAA

INTRODUCTION

You’ve made a difference in 2021!

On behalf of the AIA Ohio Foundation Board of Trustees, I would like to thank you for the support you have given us in 2021. The AIA Ohio Foundation continues to extend our reach and expand our resources, all benefiting the profession, the students and the members of AIA Ohio.

As a 501 (c)(3), who this year is celebrating our 53rd anniversary, the Foundation continues to focus our efforts on advancing awareness of the profession, supporting students through scholarships, and elevating the work of AIA Ohio and our seven (7) Ohio AIA chapters. Through your generous support, you have not only allowed us to provide scholarships to each of Ohio’s five (5) accredited architectural programs, but you have also helped provide funding for AIAS chapters and special programs and requests. With the award of this years scholarships, the Foundation has now funded $209,000 in scholarships to 102 students since the inception of the scholarship program in 2003. In addition, the Foundation continues our efforts to fund AIAS chapters as we reach out to students in a broader, more inclusive way.

In 2017, the Foundation embarked on a new strategic plan that has served us well, allowing us to increase our participation in programs and events. None of this would have occurred without the hard work of our Board. I thank each of them for their input, participation and support of our mission. I also want to thank our Executive Director Kate Brunswick, Hon. AIA, CAE for her exceptional work in helping us accomplish our goals. Her experience and dedication has contributed significantly to the success of the Foundation. We would not be in the position we are without her input and guidance. As an organization created to serve the profession, only 3.7% of our annual income goes toward overhead expenses and administration. The remainder is used to directly fund programs that advance our mission or is invested as part of our long term Strategic Financial Plan.

As we look forward to 2022, the Foundation hopes to add new initiatives that will create an even more robust organization. Over the next few months, we hope to better communicate our successes and our updated goals, as we continue to support the needs of the profession.

Once again, thank you for your support and thank you for helping us to advance our mission.
As some know, the AIA Ohio Foundation was chartered 53 years ago as part of AIA Ohio's efforts to develop an organization who could provide funding and resources to support students, research and awareness of the profession within Ohio. Originally chartered as the Architects Society of Architects, or ASO Foundation, the organization officially changed its name to the AIA Ohio Foundation in 1993. Over the last five decades, the AIA Ohio membership has been partners with the Foundation in our effort to provide scholarships to students in Ohio's accredited architectural programs. The Foundation in the past several years has expanded this effort to also fund the AIAS chapters at each of the architectural schools. The Foundation believes that this approach will create a more lasting relationship between students and the AIA.

Through mid-September 2021, the AIA Ohio Foundation has accumulated $533,318 in our investment account with another $43,677 in operations. The Foundation also holds an additional $75,692.37 for AIA Akron. As part of our long-term financial plan, the Foundation decided several years ago to move approximately $100,000 from investments to cash reserves to help maintain an operating fund in case of a significant market shift. This action will permit the Foundation to maintain our current funding levels for scholarships and programs for several years, while the market would have the opportunity to rebound.

With changes at the AIA, you may have also noticed a change to the AIA Ohio Foundation logo. As an affiliated organization of AIA Ohio, the Foundation felt it was necessary to upgrade our branding, while at the same time maintaining our connection to the AIA. Our new logo simply reaffirms this connection.

While the Foundation has traditionally focused on scholarships and the university programs, the organization has started to provide initial funding for promising events or activities at the chapter level. This continued this year, with support provided to AIA Akron for their laptop program. The Foundation is also a co-sponsor of AIA Columbus's Night to Celebrate, a program developed to recognize, Moody Nolan, Ohio's first AIA Architecture Firm Award recipient.

We are excited to face the opportunities of 2022. During our recent October Board meeting, the Board of Trustees looked toward the future. As we actively appeal for donations from Emeritus Members, we look forward toward the possibility of new scholarships and new contribution opportunities. As we look to develop a potential legacy giving program, we will reach out to members for their input and feedback. In the same way, we hope to better connect with the schools of architecture and the students as we try to assess current needs. While we know that the cost of tuition continues to rise, we are less familiar with the long term impacts of the pandemic and how it affects students. It will be through these efforts that we will be better able to serve the profession.

With an increase of just over 10% in assets over last year, the Foundation continues to evolve to meet our strategic goals and objectives, while at the same time, pursing our strategic financial plan. The Foundation is pleased with the progress we have made on many fronts and we look forward to the opportunity to continue to work with AIA Ohio to increase the footprint of AIA and the profession in Ohio.

</table>

The AIA Ohio Foundation Board of Trustees is a diverse group of individuals from across the state, representing all Ohio AIA chapters. Their work throughout the year helps the Foundation provide scholarships and funding for a wide range of programs in support of the profession.
AIA Ohio Foundation Student Scholarships

Each year, the AIA Ohio Foundation reaches out to the Ohio architectural programs as part of our ongoing scholarship program. While the Foundation has created a scholarship to be given at each school, both the selection process and the number of scholarships given are left to the discretion of the programs selection committee. While some programs focus on need, others place an emphasis on achievement and ability. In both situations, students in Ohio are being served.

Each scholarship provided has a unique story behind it. Some reflect the students successes while others address needs. Many scholarships are granted based on both. With as many as ten (10) scholarships granted each year, the impact of the AIA Ohio Foundation has grown each year as we have increased funding and added programs. One of this years recipients was Cassidy Rogers - a student at the University of Cincinnati DAAP. Cassidy received a $3,000 Foundation scholarship to help her complete her studies in the UC MArch program. While spending most of her time as a graduate student in remote learning, Cassidy has had the opportunity to mentor others and participate in co-op learning with RWA Architects.

“I can’t thank you enough for your contribution to my education...I am extremely grateful for your support to help me get to this next chapter of my life. Once again, thank you.”

Congratulations to Cassidy on being one of the 2021 AIA Ohio Foundation scholarship recipients.

The Charles Marr Citation

As you read through this annual report, you soon realize that there are several key programs and activities that make up a large part of the Foundations annual efforts. The Charles Marr Citation is the organizations best known of these programs. Each year, firms, organizations or individuals contribute to the fund and, upon the donation of $1,000, they become eligible to receive a Marr Citation or to award the Marr to some other deserving recipient. In 2021, we have nine individuals who were recognized at the Member Recognition Program on November 4th in Columbus. These recipients include:

- Jane Trieber
- Robert Maschke, FAIA
- Linda Beal
- Rob Habel, AIA
- Patrick Lankey, AIA
- David Craun, AIA
- Krutarth Jain, AIA
- Anthony Malik, AIA
- Aleksandr Daskalov, AIA
- AIA Ohio
- AIA Ohio Foundation
- AIA Youngstown
- AIA Cleveland
- AIA Cincinnati
- AIA Toledo
- AIA Columbus

The Foundation would like to thank and congratulate each of the recipients. We would also like to thank the Ohio AIA components who participate in the Marr program. Many chapters have chosen to recognize their outgoing presidents with the Charles Marr Citation, not only as a means to acknowledge their efforts and hard work, but also as a way to pay-it-forward and to create an opportunity for those who will soon enter the profession to receive funding to help advance their education.

AIA Component Matching Scholarship Grants

In addition to the scholarship monies raised through the Foundation, we have also been fortunate to have once again been a recipient of the AIA Component Matching Scholarship Grant. This effort, undertaken by Executive Director Kate Brunswick, Hon. AIA, CAE, provides the Foundation with matching funds to assist us in our effort. Congratulations to Kate on another successful application.

### Quick Fact #1:

The Charles Marr Citation was created in 1990 as a means of recognizing long time Foundation supporter Charles Marr and as a funding source in support of the Foundation. Over the past thirty years, a total of $74,990 has been raised as part of this program. What may be surprising to some however, is that over 56% of this total has been contributed in the last five years.

### Quick Fact #2:

The Charles Marr Citation is one of the best know sources of non-dues revenue for the AIA Ohio Foundation. Through this citation, an average of six to seven individuals are recognized annually. Did you know however, that while this program is a valuable source of income for the Foundation, this generally makes up only a little over 8.5% of the annual income of the organization? Did you know however, that while this program is a valuable source of income for the Foundation, this generally makes up only a little over 8.5% of the annual income of the organization?

### Quick Fact #3:

While the Charles Marr Citation has been around since 1990, there have been Marr recipients recognized in only 19 of those 30 years. Do you know that in those 19 years, the AIA Ohio Foundation has now recognized 67 individuals in whose name at least $1,000 has been donated to the organization? Will you be the next $1,000 Charles Marr contributor?
Report

November 6, 2021

Report Provided by Yanitza Brongers Marrero and Terry Welker:
To better inform members of the work and activities of the AIA Strategic Council

Yanitza Brongers Marrero  Terry Welker
Ybrongers@moodynolan.com  terry.welker@ketteringoh.org

Included with this report is the October Monthly briefing. We will email the November and December Monthly Report as it becomes available by the Council.

Below is a list of some of the duties by the Strategic Council this year:

- Standing Committees:
  1. Steering Committee
  2. Best Practices
  3. Communications
- Sprints (Institute Initiatives)
  1. Clarifying the Council
  2. Diversity Sprint
  3. Scalable Climate Action
- Areas of Study (AOS)
  1. Housing + Infrastructure
  2. Rural + Suburban Agenda
  3. Technology Impacting Practice
  4. Mental Health + Architecture
- Board Committee Participation

The Areas of Study Groups have been presenting the work produced to the Council. Below are some images of the type of work that we have been generating during our meetings. The final report for these groups will be presented to the Board during Governance week in December 2021.
Technology Impacting Practice AOS

2021 AREAS OF STUDY

The Quandrants

1. Physical Well Being
   - Water, Food & Health
2. Prosperity
   - Education, Income & Work, Power & Justice
3. Community Engagement
   - Social Equity, Gender Equality, Political Voice
4. Physical Infrastructure
   - Transportation, Networks & Energy
Rural + Suburban Agenda –
Abstract (WHY): DESIGN a Rural + Suburban agenda identifying resources for our members and communities within which they practice!

Mental Health –
Abstract: We will build a bridge between existing mental health expertise and the architecture profession.

Technology Impacting Practice (TIP) -
The Challenge: We cannot rest in our quest for evolution and transformation. It is essential if we are to remain relevant in our profession.

Housing & Infrastructure –
The Challenge: Demand for affordable and equitable housing is rising at a faster rate than the design and construction industry can currently meet.

2021 VISIBILITY NETWORK CALLS
Tim Hawk has been sharing the updates and has shared the recorded version of each meeting. Meetings have been very productive and well attended. Updated have included information from the Board and Advocacy Initiatives.

In Closing...
On behalf of Terry and myself, it has been our distinct honor to represent Indiana, Kentucky, and Ohio on the Strategic Council over the course of 2021. This has been a very exciting year in the Council. We appreciate all the support and communications provided to us. We hope that although the region has been dissolved that we can continue to find pathways for collaboration between Ohio, Kentucky, and Indiana into the future. We are thankful for all the past successes! We also want to thank Terry Welker for all his years of service to the OVR and the Strategic Council. His energy, mentorship and insightful perspectives will be greatly missed. Should there be any questions regarding any of the information contained within this brief report, please feel free to reach out to me (Ybrongers@moodynolan.com).

Respectfully submitted,

Yanitza Brongers-Marreno, AIA
Website: Visit the AIA Strategic Council for more details.

Mission
The Strategic Council advances the architecture profession by informing the Board and other Institute bodies about important professional issues, opportunities, and threats. Although it is not an AIA governing body, the Council’s work is vital to AIA’s ability to serve the profession. The Council approaches its tasks with an emphasis on an outward and forward-focused vision.
Moderator and Vice Moderator Message
Last month we welcomed three new At-large Representatives to the 2022 Strategic Council: Craig Chamberlain, AIA, Anne Hicks Harney, FAIA, and Tate Walker, AIA who were all selected to join the Council in 2022 in this role. We look forward to the great work they will be doing along with the incoming Strategic Council members as States work on finalizing their Fall elections.

As the year nears its end, we are focused on preparing for our meeting with the Board and Areas of Study Conveners ahead of Governance Week this month. It will be a chance to share final accomplishments of 2021 and set the stage for an exciting 2022.

Transitioning for 2022 is also a part of our work these days. We have been including 2022 Moderator Korey White, AIA and 2022 Vice Moderator Kevin Alford, AIA on our weekly calls. Incorporating better continuity has been a theme this year and having them join us this soon has been a true benefit as we put our heads together discussing orientation and work moving from 2021 to 2022.

December is in our sight and Governance Week will be here before we know it. Having an opportunity to gather together in Washington, DC will be a wonderful way to mark the end of the year.

2021 COUNCIL SPRINTS
(Short term exercises taking place within the larger objective)

Clarifying the Council Sprint –
Abstract: We are a sprint that will last 2-3 months with the goal to submit our findings to the Council the Board and the Members Voice Task Force in October.

Our Sprint is working furiously to conclude its work. We have broken out into smaller sub-teams that are considering the Council’s relationship to itself, the Board, AIA staff, and other Institute bodies. These sub-teams have been tasked with outlining recommendations and objectives that we look forward to sharing with the rest of the Strategic Council. Our hope is that these will help inform future relationships and work of Council.
Diversity Sprint –
Abstract: Explore the impact of diversity within the Strategic Council and the new States representation model.

This work will continue on to promote awareness and encourage future Council candidates. It has not met recently, but rather it is likely this work will continue through the Strategic Council Best Practices Committee in 2022.

Scalable Climate Action sprint –
Abstract: Catalyze the architectural practice at all scales_regions to fully implement climate action in the next two decades.

The Scalable Climate Action report summarizes actionable recommendations in each topic and a Roadmap with specific incremental goals at all scales – from individual to firm, to community, to national. We coordinated our work with stakeholders across the organization and the report will be posted on aia.org, here, before November is through after it completes its final phase of design with the AIA Marketing team.

Additionally, since our original findings went forward, our group has been busy preparing an addendum which we anticipate being available alongside the original report in 2022.

2021 AREAS OF STUDY
(Groups focused on specific topics from the professions perspective)

Rural + Suburban Agenda –
Abstract (WHY): DESIGN a Rural + Suburban agenda identifying resources for our members and communities within which they practice!

The feedback_information received from our over twenty regional workshops and university scans has been compiled and summarized into major theme areas that will inform our next steps and recommendations to the AIA Board of Directors.

The December 2021 final report and board presentation will document two years of effort revealing the opportunities and challenges associated with supporting smart planning initiatives in these communities. Most importantly we will quantify the strategies for how Local and National AIA organizations, allied industries, and government agencies might assist design professionals and educators who practice within these rural + suburban areas.

Housing & Infrastructure –
Abstract: Create AIA pathways to support architects’ reach to champion equitable housing and communities.
The Challenge: Demand for affordable and equitable housing is rising at a faster rate than the design and construction industry can currently meet.

We enjoyed our opportunity to participate in the Housing and Community Development KC symposium on October 11.

Our attention, much like our fellow Areas of Study, is centered now on prepping for year end discussions and recommendations for consideration.

**Mental Health + Architecture**
Abstract: We will build a bridge between existing mental health expertise and the architecture profession.

Our Area of Study is preparing to host the Strategic Council’s November Coffee & Conversation. We are creating a survey to send out in advance to facilitate the conversation on Mental Health on how it applies to Council but also externally for clients. Our goal is to provide an opportunity for Council to develop more understanding our subject matter.

We are also hosting a roundtable discussion with some of the Knowledge Communities to see where there is opportunity to explore our topic more inside their subject areas.

**Technology Impacting Practice (TIP)**
Abstract: To expand TIP’s 2020 Summit Call to Action to a Resolution in New Ways of Practice, Delivery & Monetization.

We had the opportunity to present to the Council at its October Coffee and Conversation. We enjoyed sharing our work to date and making everyone aware of our findings. We challenged everyone to consider how it applied to their Areas of Study and this led to a very rewarding discussion.

We are now working to prepare our work for the discussion with the Board of Directors ahead of Governance week and also planning in hopes of continuing our work in 2022.

**2021 CONNECTORS**

Connectors were established at the beginning of 2021 to keep the Council work relating back to justice, system disruptors, and climate impact. These individuals were tasked with embracing areas of impact at the end of the year.

They are in the process of meeting with all Area of Study conveners to confirm the strategic priorities are not missing from hard work of each Area of Study. Ultimately, they hope to make sure meaningful connection is noted and they are
looking for conveners to assist with dialogue around the three topics areas of impact.

**Mission**
The Strategic Council advances the architecture profession by informing the Board and other Institute bodies about important professional issues, opportunities, and threats. Although it is not an AIA governing body, the Council’s work is vital to AIA’s ability to serve the profession. The Council approaches its tasks with an emphasis on an outward and forward-focused vision.

Ohio Valley Region – Young Architect Regional Director Report
Seth Duke, AIA
November 05, 2021

Young Architects Forum (YAF) - National:

Advocacy Focus Group:
- A large initiative from the Advocacy group this year has been their 3-part webinar series the first two of which are available on AIAU:
  - “So You Want to be a Citizen Architect?”
  - “So You Want to Design for All?”
  - The third webinar will be focused on Universal and Inclusive Design and is tentatively scheduled for November 17th.

Strategic Vision Focus Group:
- A new podcast series titled Pod[Chaos]t launched this summer. The series is a collaboration between YAF and the American Institute of Architecture Students (AIAS) with 4 episodes currently out.
- The YAF Strategic Vision group is partnering with Larger Firm Round Table for an Innovation Grant Program to perpetuate innovation in the practice of architecture by empowering emerging professionals to do things they would not otherwise have the capital or resources to accomplish. The goal is to launch this program in January to align with the College of Fellows EP Component Grant and AIA Trust Grant cycles.
- A “Culture Shift” Practice Model Toolkit is in the works providing guidelines and case studies on alternate practice models in partnership with the Small Firm Exchange.

Knowledge Focus Group:
- A new webinar is in the works: “Should I Stay or Should I Go?” for young architects looking to make the decision between staying in your current firm, looking to work somewhere new, or starting your own practice.
- New for 2021, the Knowledge Group has begun publishing a “Now Ya Know” newsletter which has upcoming dates to emerging professional events, links to our publications, and more. Find them attached with this report.

Communications Focus Group:
- The Communications group primarily focuses on the Young Architects Forum quarterly publication Connection, see the links below to this year’s issues so far.
  - Connection Q3: Justice, Equity, Diversity and Inclusion
  - Connection Q2: Mentorship, Citizen Architects & 2021 Awards
  - Connection Q1: Climate Action
Community Focus Group:
- The Community focus group held a “Fireside Chat” with national board members regarding the role of the national board and the path to running for national office with members of the YAF and ALIGN mentorship program.
- A second fireside chat was held with members of the Strategic Council with current and past members of the YAF and National Associates Committee (NAC) discussing the process of running for a Strategic Council position, what serving on the council involves, and what to consider if interested in volunteering as a member.
  - This fireside chat included two councilors from our region: Yanitza Brongers-Marrero, AIA and Lora Teagarden, AIA

Region Restructuring:
- AIA Staff has helped develop the transition plan for YAF and NAC. Ohio, Indiana, and Kentucky will all have representatives to YAF beginning with terms in 2022-2023 and then will choose representatives to the National Associates Committee beginning in 2023-2024

Ohio Valley Regional Updates:
The AIA Kentucky/AIA Indiana Convention was held in Louisville on September 23rd-24th and focused on Future Technologies, Future of Practice, and Future of Communities. There was a mini Practice Innovation Lab focused on remote and hybrid practice models by the Indiana YAF group.

In Ohio, the EP Friendly Firm Program task force is ongoing with the designation program tentatively launching early in 2022. For more information on the basis of the program, see here.

With regards to the region restructuring and positions within the Young Architects Forum and National Associates Committee:
- Jonathan Ruiz, Associate AIA from AIA Kentucky will be finishing his 2021-2022 term as Regional Associate Director for the Ohio Valley Region. Each state will then select a new representative to the NAC for 2023-2024
- I (Seth Duke, AIA) will be serving for a second term as YAF representative, transitioning from being a regional representative to a representative for the state of Ohio for 2022-2023
- Terry Zink, AIA will be representing Kentucky to the YAF for the 2022-2023 term.
- AIA Indiana’s representative to the YAF is yet to be determined.
- Matt Toddy, AIA was chosen as YAF Vice-chair for 2022 following his term on the Administrative Committee as Strategic Vision Director.

Sincerely,

Seth Duke, AIA
OVR Young Architect Regional Director
It was all a dream, if you didn’t read the latest Connection magazine: Quarter 1, 2021: Climate Action

Connection is the premier online publication of the Young Architects Forum, distributed quarterly.

Submit for the 2021 College of Fellows Emerging Professionals Component Grant Program
Grant funds of up to $5,000 are available for components for a specific program or activity supporting EP’s

Congratulations to the 2021 Young Architects Award Winners
AIA awarded twenty recipients in 2021 who have demonstrated exceptional leadership and made significant professional contributions early in their careers.

**Now YA Know:**

A bi-monthly newsletter from the AIA Young Architects Forum (YAF). Look out for important news, AIA updates, and ways to engage, no biggie.

---

**Rap Recap:**

Listen to this issue’s juicy highlights

---

**If Ya Don’t Know:**

**AIA’s Regional Dissolution**

Following the 2021 AIA Annual Business Meeting, AIA Regions will be dissolved in 2022 in favor of state and territorial representation. Leadership will be transformed across various committees, including YAF.

**Link: Official Announcement**

---

**Call for Young Architect Representatives**

The AIA Young Architects Forum national committee will be growing from 2022–2024 to represent additional states or territories.

Please inquire with your local or state component about this unique leadership opportunity.

---

**YOUNG ARCHITECT POLL:**

Take the poll here!

- What should YAF focus on in 2022?
- How do you like engaging with us?
- How can we help improve your knowledge base?

We want to hear from you and learn from you!

---

**The following states/territories will need new Young Architect Representatives in 2022:**

Arizona / Colorado / Connecticut / Georgia / Indiana / Kentucky / Maine / Massachusetts / Michigan / Nevada / New Hampshire / New Mexico / North Carolina / Ohio / Rhode Island / South Carolina / Texas / Utah / Vermont / Virginia / West Virginia / Wyoming

Learn more about the transition:

- **Link to YAF Transition Plan**
- **Link to Component Guide for Transition to State-Based Model**

---

**Is your EP programming running two G’s flat? No need to worry, YAF handles that**

The Young Architects Forum has produced various documents and toolkits for local components.

- **Start or Grow your Local Emerging Professionals Committee**
- **Facilitate the Emerging Professional Friendly Firm Program**
